AMAZING THINGS HAPPEN AT LANDAU

At the start of the term we were lucky enough to have external photographer Kate come to Landau to teach us the basics of photography. She has now joined our team in the role of a Tutor! Learners Theo and Rasaan shared what they learned on the course:

“We had been going out into Wellington taking photos of different objects, in week 4 we looked at how certain images can tell a story and in week 5 we learned how to make a small world with a picture of a cityscape.”

This term came to an end on the 16th of July. Our learners could have been resting in the sun already after their exams, but they were not ready to put their feet up just yet! Participation of Landau Study Programme learners in the Great Telford Run was organised by Learner Caitlin and Learning Support Assistant Erika. The walk took place on Tuesday the 13th and Thursday the 15th of July. Everyone had a great time and received t-shirts and medals!

KEY DATES

6th September: Autumn starts for our new and returning Study Programme learners

OUR INCREDIBLE LEARNERS

Meet our learner Eve, who has been working tirelessly to achieve her goals on a personalised study program. Despite the pandemic, Eve hasn't stopped succeeding and achieving her goals and has recently started a new activity.

Eve became a regular gym-goer and serves as a good example to others!

CAREERS CORNER Apprenticeships

Apprenticeships are an exciting option; you get hands-on training and the chance to put your skills into practice. It is completely different to being in school or college and is a way of easing into a work environment whilst having people guide you along the way.

The Advantages of an Apprenticeship:

- Gain experience and skills that employers want.
- Earn while you learn
- 90% of apprentices are kept on by their employers upon completion of their course and nearly one-quarter of apprentices are promoted within 12 months of finishing.
- Receive a nationally recognised qualification.
- Enjoy a salary of at least the apprentice minimum wage.
- Pay no learning costs, debt, or student finance.
- Receive all employee benefits.

UNTIL NEXT TERM!

We are preparing to greet you in Landau at the beginning of the next academic year **w/c 6th of September**. Your timetables will be sent out over the summer break.

We will be working hard to have more classroom space for you. Our Study Programme dream team is growing and we will be greeting new Tutors, HLTAs and LSAs, and of course new learners! **Please keep an eye on the Landau Facebook page (link on first page) for introductions of new staff.**

SENIOR MANAGEMENT UPDATE

It has been a very busy time in the centres since Easter, with many learners preparing portfolios for their qualifications and also undertaking their functional skills exams.

Despite all the challenges that Covid and lockdown has given us, there has been determination from everyone to keep things as normal as possible, and to continue to offer a welcoming and safe environment for learners and staff for those able to come in, and remote or online learning for those who have been at home. We were delighted to welcome everyone back from lockdown.

We are also immensely proud to have been awarded the Queen's Award for Enterprise in April this year for Promoting Opportunity (through Social Mobility). The Award recognises the efforts and commitment of staff and volunteers who support our service users across all of our programmes.

Our Study Programme continues to grow and we will be taking over the premises next door at number 4 Tan Bank to accommodate the growing number of learners. We're excited about the future and expanding our provision to encompass more vocational and hands-on courses, and to hopefully be able to give our learners real work experience to prepare them for their next steps in life.
