

# IN2 YOUTH SUPPORT PROGRAMME NEWSLETTER

A bimonthly publication by Landau Limited

## WHAT IS IN2?

IN2 is an employability and personal development programme for 15 to 24-year-olds who are at risk of NEET or NEET.

This programme focuses on developing young people's employability and key life skills to take control of their own lives and move towards a better future.

The IN2 programme equips young people with basic and employer led skills, providing them with the support to move into sustained education, employment, or training, through traineeships or apprenticeships.

## FORTHCOMING EVENTS

**Come & see us at our forthcoming Jobs Fair and pop up Jobs Shops around the county**

**Monday 22nd August:** Ludlow Library, 7-9 Parkway Ln, Ludlow SY8 2PG

**Monday 12th September:** Mayfair Community Centre, Easthope Rd, Church Stretton SY6 6BL

**Wednesday 5th October:** Herefordshire Jobs Fair, The Green Dragon Hotel, Hereford

The IN2 project has supported **1608** young people to date

**We need Employment, Traineeship & Apprenticeship opportunities for our participants – if your business or organisation can help we would love to hear from you – please contact the partner direct for your sector or approach us at Landau – we look forward to hearing from you!**

We were delighted to welcome over 30 businesses to our Shropshire Jobs Fair last month at Shrewsbury Prison, along with dozens of job seekers.

Exhibitors covered a range of industry sectors including care, construction, retail and hospitality and there were more than 500 vacancies on offer.

## OUR PARTNERS

### HORIZON TRAINING

Todd was hanging around with a bad crowd which had started to impact on his behaviour. He was supported by the Youth Justice team as an intervention and they referred him to the IN2 Programme at Horizon Training. He had no aim or direction and things were stacking up against him.

Todd's goals on the programme were to gain Construction skills and a L1 Award in Health and Safety qualification. His aims were to learn construction skills in carpentry and bricklaying, to become a good team member and improve social interaction.

Todd's interaction with other learners gave him new friendships and built his confidence. Todd clearly enjoyed the course and received guidance from the Construction tutor on jobs and future employment within the construction industry. Todd was encouraged to work towards a L1 Extended Certificate in Construction Skills which he completed which is a massive achievement and will open lots of opportunities for him – well done!

A huge congratulations to Todd for his achievement, next steps are full-time employment in the construction industry – good luck!!!

### HVOSS hvoss

The IN2 Training participants had an exciting day serving refreshments with Friends of Castle Green for the Commonwealth Baton Relay, Hereford leg & took the opportunity to display their craftwork from the workshops. This was a great confidence booster dealing with questions, taking money and giving change, and listening to the customer orders – well done to all!

**Macmillian Coffee Morning:** 29th Sep, 11.30 –1pm, Pavilion, Castle Green. Please come along and support. Yummy cakes will be available!!

### RENU HAIR TRAINING ACADEMIES

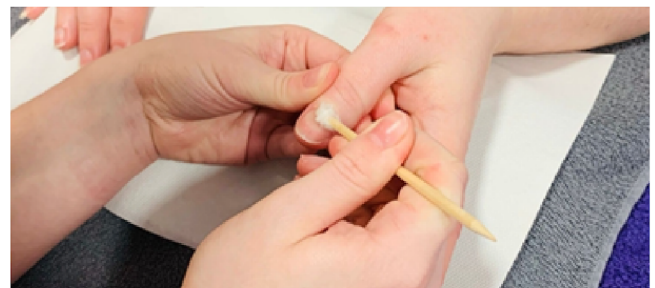

We warmly invite you to meet the team & visit our training facility on **August 22nd, 1-5pm.**

Do you fancy a Career change to study Hair & Beauty?

## SCHOOL OF CODING

Congratulations to School of Coding for their recent business award achievements! They were proud winners of the Excellence in Technology Award at the Nachural Summer Awards 2022 that took place 8th July at Wolverhampton Race Course; Runners up for Business of the Year and Entrepreneur of the Year awards.

School of Coding continue to provide support to learners to expose them to apprenticeships/traineeships and employment within the sectors. The photo on the right shows a cohort of learners learning how apprenticeships lead to degree apprenticeships and their advantages. School of Coding are working with a new Apprenticeship Provider to find suitable learners for their apprentice opportunities across all sectors.

School of Coding are keeping learners aware of upcoming job fairs and are requesting apprenticeship talks at schools from September to raise awareness of this amazing career choice.

Visit School of Coding's website at:

## BRIGHT STAR BOXING

A huge congratulations to Niko! Niko attended Bright Star in 2021; he has just completed his first year of college and has been awarded Outstanding Achiever! This is a person who when referred to the Futures programme was struggling in school and at risk of exclusion.

"Boxing has helped show me I can achieve, it has given me an outlet and helped me make new friends. But the mentors I have are the people that have given me hope – they have all been there themselves and I know they care about me. They have taught me to manage my thoughts and helped me set and smash my goals.

It's changed my life. My life has structure. I am in control. I have completed school, I have great friends, I have now ran a marathon. I box up to 5 times a week and help coach the kids. I am in college and won the outstanding achievement award this year. Bright Star have also helped me get a job with a building company where I am working alongside an electrician, which is what I'm studying at college too."

Niko is proof that anyone can change their life around and is such an outstanding person. The incredible changes Niko has archived are inspiring and we are so, so proud of you champ!
